

Revolutionizing Flight Operations As You Know It

CAE Flight Operations Solutions

CAPA Americas Aviation Summit 2023 – Innovation Roadshow
Prasanna Gowdar | Vice President, Product and Services Delivery

CAE

CAE Civil Aviation: elevating and advancing human performance

Our Markets ► Commercial Aviation | Business Aviation | Helicopter | Advanced Air Mobility

Enhance human performance

Aviation Simulation

- Simfinity XR Series
- Flight Training Devices
- Full Flight Simulators
- Equipment Support and Lifecycle Services

Aviation Training

- Pilot Training
- Cadet Academies
- CAE Instructor-Led Training
- Training Center Operations
- Cabin Crew Training
- Aircraft Maintenance Training

Instill confidence

Support your growth through flexible solutions

Aviation Operational and Technical Services

- Aviation Resourcing
- Operations Management
- Aircraft Technical Support Services

Partnering Approach

Aviation Digital Solutions

- Operations Control
- Crew Management
- Flight Management
- Airport Management
- In-Flight Services Management
- Training Management
- Crew Engagement – Logbook and Apps

Increase your efficiency

Listening to the market and investing to build a broad digital ecosystem

Launched digital transformation projects

with first application for training efficacy and insights

Expanded into crew training

with learning, grading and qualification management software suite

Entered crew management

with crew and training scheduling, and proven optimizers

Grew into crew engagement

loved by half a million crew members worldwide for work and life on the go

Launched \$1B investment program

on solving aviation industry challenges with future technology

Extended into flight operations management

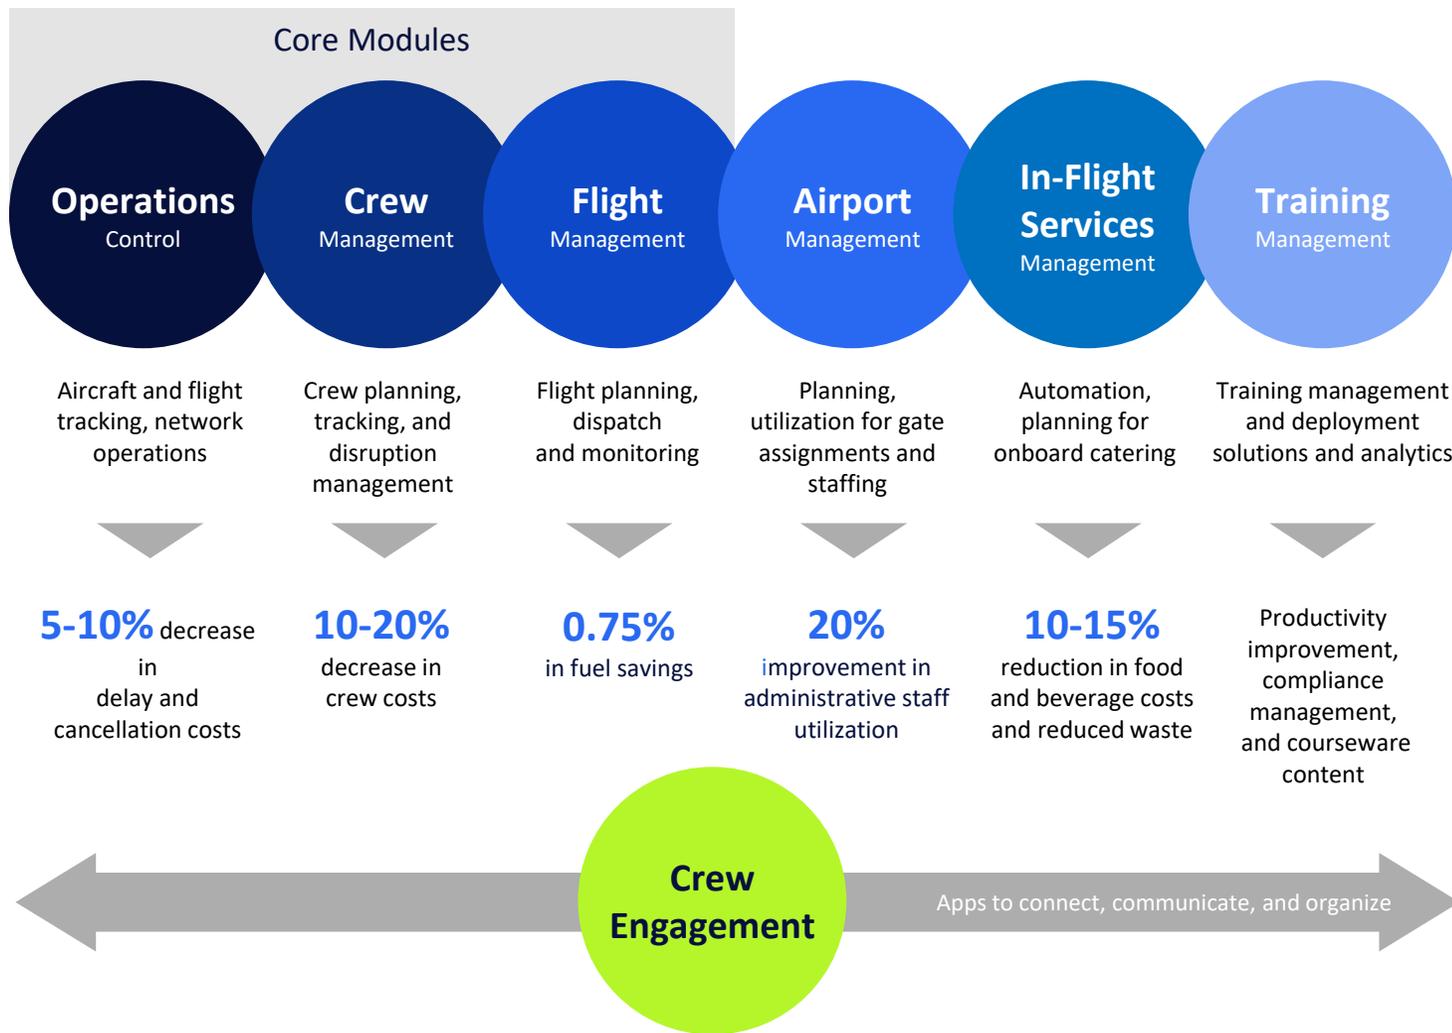

with movement, crew, flight, airport, and in-flight solutions

Flight Operations

An industry-leading digital platform that enables end-to-end flight operations management, empowering operators to increase satisfaction of passengers and staff.

- 1M** meals catered daily
- 200K** crews supported
- 20K** flight plans generated daily
- 20K** airport staff managed
- 7K** aircraft managed

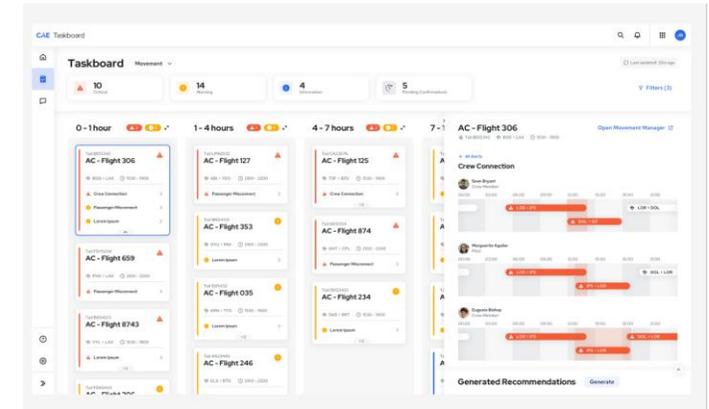

Every five seconds, a flight takes off using our flight operations platform

Committed to innovation: our investment towards digital transformation

Operations Control

- Operations Recovery
- Task Board

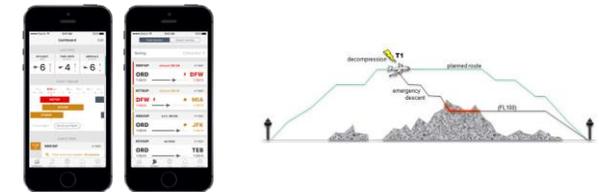

Crew

- Crew Recovery
- Crew Planning
- Training Scheduling, Optimization, and Peleysys integration

Flight

- Terrain Resolver
- Trajectory Optimizer
- Suitability Checker
- Workload Optimizer
- Flight Explorer Web and Mobile

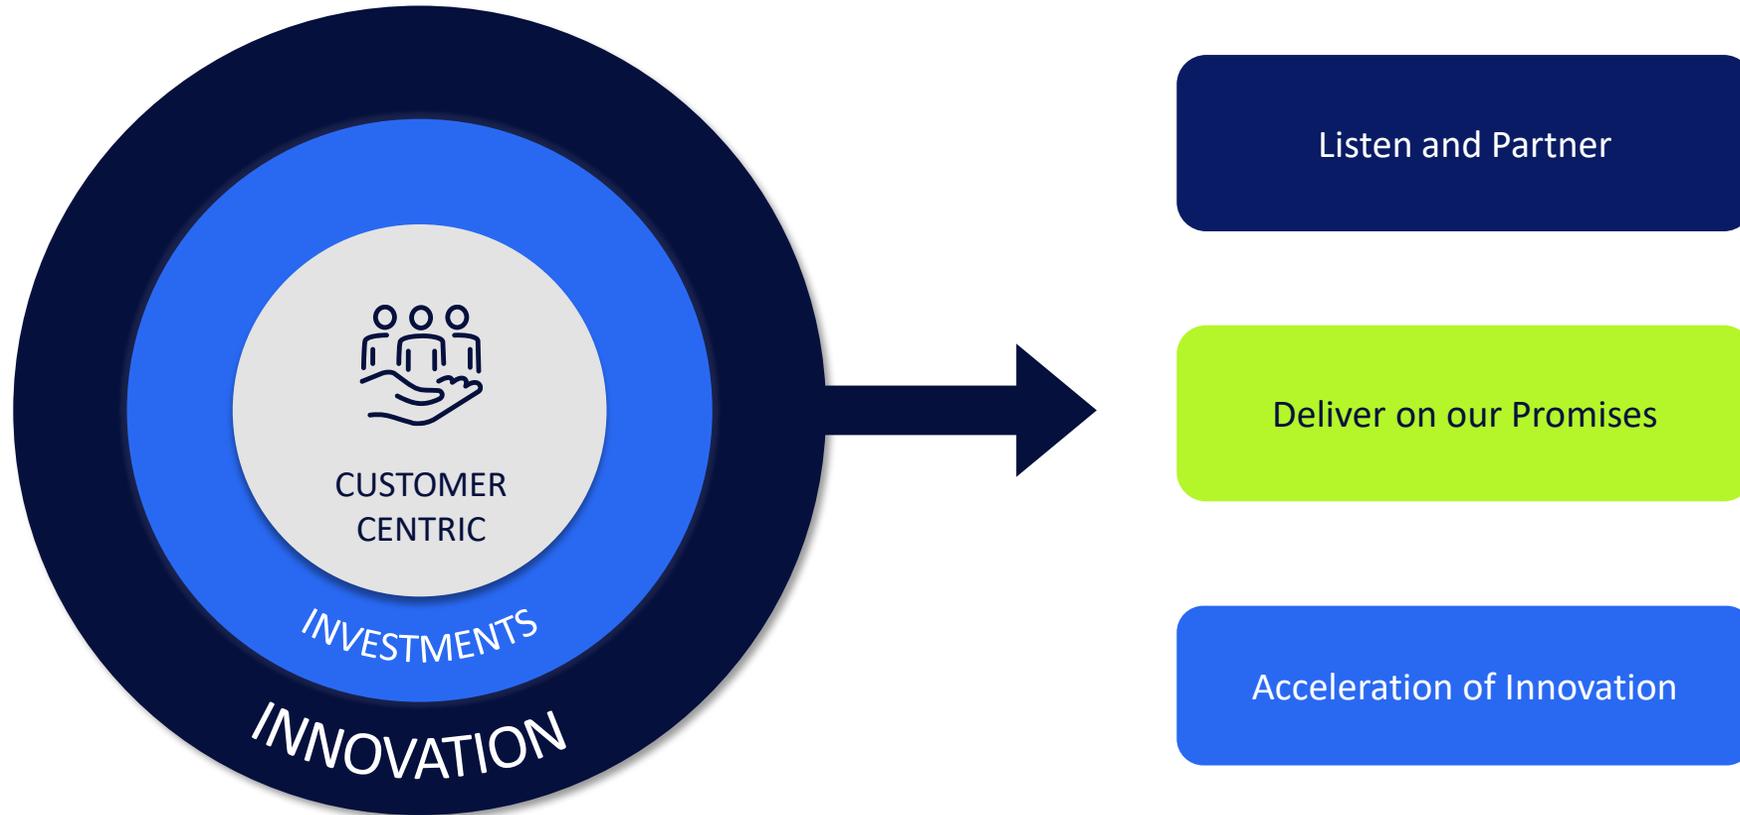

Airport/In-Flight

- Airport NextGen
- In-Flight: ML Enabled Meal Forecasting
- In-Flight: UX refresh

Our customers are at the center of everything we do

Transforming innovation into major environmental gains

Our pre- and post-flight solutions help airlines better manage their operations which result in:

FUEL SAVINGS

MEAL WASTE REDUCTION

Revolutionizing
Flight Operations As
You Know It

Thank you!
