

## AWIN Quick Start Guide: Fleets & Operators

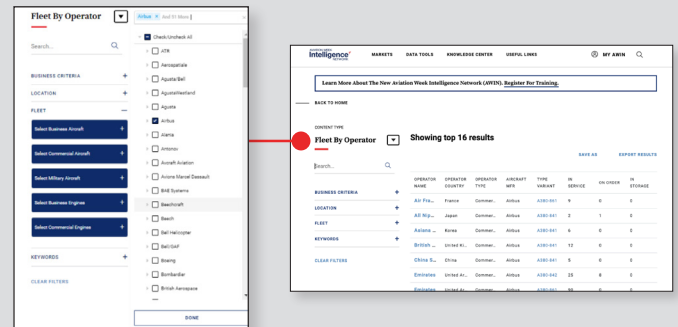

From the AWIN homepage, click on the **FLEETS** icon to search by operator, aircraft or engine.

On the **FLEETS** page, you'll find a general search bar. Type either the operator's name or aircraft type and press enter to display the results.

For a more advanced search, the following filter options are available to refine your search results.

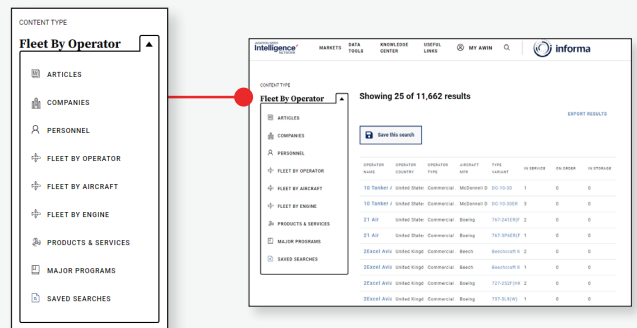

- Business Criteria
- Location
- Operator Fleet
- Keywords

You can click on the operator name to view the company profile or the aircraft type to view the aircraft profile.

To switch the order of how the data is displayed, use the dropdown menu next to the word "Operator" and select Fleet by Aircraft or Fleet by Engine.

Note that Fleet in AWIN is updated every two weeks.
