

## AWIN Quick Start Guide: Searching Within AWIN

All users have the option to perform a **Quick Search** or an **Advanced Search**.

Perform a **Quick Search** using the magnifying glass when you want to search for news articles covering a specific topic. Please note, additional filters cannot be used when performing this type of search.

To use the quick search, select the magnifying glass.

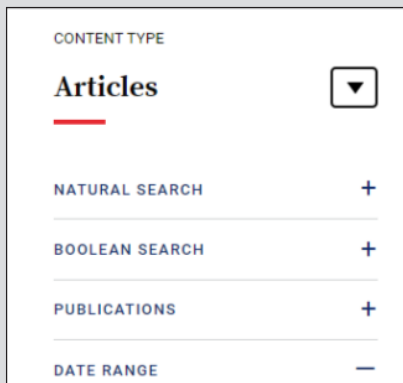

Perform an **Advanced Search** when you want to set any number of filters, including a specific product or a specific date frame.

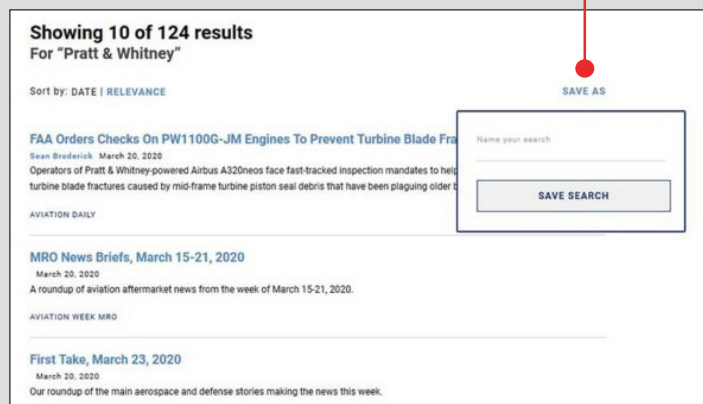

To use the advanced search, select "Articles".

When using the Advanced Article Search, if you don't select a specific publication, all publications you have access to within your AWIN subscription will populate.

To save your search result, click "save as" at the top right of the search results page. A box will appear for you to enter the desired name for the saved search.
