

## EDITORIAL PREVIEW

# February 2017 - Issue Highlights

Align your marketing message with content from the February 2017 issue of Inside MRO. We will feature:

### ► Africa - An Emerging Market:

Our Inside MRO team will cover African carrier aftermarket needs and the unique MRO challenges and opportunities on the continent. Which companies are the dominant MRO players in Africa—and what untapped needs exist in the aftermarket, supply chain and logistics areas?

### ► Engine Teardowns:

Our editorial team will examine the evolving engine part-out market for narrowbody and widebody engines, as well as how forecasted retirements could impact the dynamics.

### ► Indian MRO:

The Indian MRO market has a lot of potential, but start-up hurdles can be hard to navigate. Air India recently opened a new MRO. Our editors will identify upcoming changes to this market.

### ► Engineered: Nacelles

Will next generation nacelles be harder to maintain—and more costly?

### ► Aircraft Analysis: Airbus A330

A close look at the Airbus A330's performance and upcoming aftermarket opportunities.

### Bonus Distribution:

MRO Middle East, Feb. 8-9, Dubai, United Arab Emirates  
Aero Engines America, Feb. 15-16
